Art Unit: 3629

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,3 are rejected under 35 U.S.C. 102(b) as being anticipated by Alumbaugh (6266614).

For claims 1,3, Alumbaugh discloses a tour guide system that uses GPS technology. The tour guide 200 has a receiver 202 that senses information and determines location as claimed and for determining a current direction. The database is 214 and contains a listing of places of interest. The guide has an input means 218 for selecting various function of the device (such as selecting tours/items of interest). The device has a display as claimed and functions as claimed.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Alumbaugh (6266614). Not disclosed is that the device has a LCD display. Alumbaugh discloses a display but does not disclose that is an LCD display. It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the

Art Unit: 3629

display of Alumbaugh be an LCD as claimed. An LCD is very well known when it comes to display devices and is considered very obvious.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Alumbaugh (6278938), Hoffberg (6429812), and Clapper (6023241) disclose devices that use GPS location technology relevant to what is claimed.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis Ruhl whose telephone number is 703-308-2262. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Weiss can be reached on 703-308-2702. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
